REQUEST FOR DRAWING CORRECTION APPROVAL

Request is respectfully made for approval of the drawing corrections presented in red ink to correct Figs. 1-3. These figures have been amended to show the restoring spring 56 of the driving lever 30, a restoring spring 58 of the rotary latch 14 and an auxiliary opening lever 60. Support for the addition of these elements is found throughout the specification for the approval by the Examiner. Thus, it is respectfully submitted that no new matter is entered by these proposed drawing amendments. Formal drawings including these amendments will be filed upon receipt of approval of the Examiner.

Respectfully submitted
Jürgen EHRET, et al
